

ADESH PAWAR

adeshpawar1109@gmail.com | +44 7769482779 | Leeds, UK

Quality-focused analyst with hands-on experience in performance improvement, quality auditing, and stakeholder coaching across contact centre and retail operations. Proven expertise in evaluating performance against quality frameworks, conducting process audits, maintaining KPI compliance, and driving continuous improvement. Track record of maintaining ISO compliance standards in fast-paced, high-volume environments.

EDUCATION

MSc Business Analytics and Decision Sciences | University of Leeds, School of Business | Sep 2023 - Sep 2024
Bachelor of Engineering, Electronics with Minor in AI | G H Raison College of Engineering | Jul 2018 - Jun 2022

PROFESSIONAL EXPERIENCE

Quality Data Support Analyst, Cognizant Business Solutions | Jul 2022 - Aug 2023

- Evaluated performance against quality marking frameworks and compliance standards, conducting systematic auditing of workflows and processes to identify root causes and improvement opportunities
- Responded to stakeholder requirements and coached cross-functional teams through performance discussions, providing constructive feedback and facilitating knowledge transfer sessions to drive continuous improvement
- Maintained KPI tracking across key metrics including accuracy, compliance, and SLA adherence; produced clear documentation of performance findings, audit logs, and escalation records for management review
- Used Informatica Cloud and internal systems to audit process workflows, reducing processing bottlenecks by 30% while maintaining 100% production uptime and compliance alignment
- Collaborated with business teams at all levels to validate requirements, conduct performance reviews, and escalate unresolved issues ensuring service standards were upheld

Store Operations & Quality Support, Sainsbury Local, Leeds | May 2024 - Present

- Monitor quality standards and compliance metrics across 1,000+ products weekly through systematic auditing of pricing, inventory accuracy, product labelling, and shelf compliance procedures
- Identify recurring performance gaps and operational issues (stockouts, labelling errors, stock damage); escalate findings to management with root cause analysis and actionable recommendations for improvement
- Maintain detailed Excel trackers and audit logs documenting daily quality observations, performance metrics, and compliance status to support data-driven decision making
- Communicate findings and performance updates to store leadership and operations teams; work collaboratively to implement improvements in inventory management, standards, and audit readiness
- Conduct thorough audits of expiry labels, waste management, pricing accuracy, and store hygiene processes; flag deviations promptly ensuring operational transparency and regulatory adherence

Quality Assurance, Outlier AI, UK | Nov 2024 – Present

- Conduct systematic quality assurance and auditing of outputs, validating alignment with specified requirements and quality standards through detailed analysis and iterative refinement
- Ensure strict adherence to quality protocols while processing submissions; maintain meticulous documentation of QA findings and feedback for continuous process improvement
